KEY TAKEAWAYS

Facility Self-Assessment Tool

State of Vermont
Department of Public Safety
Vermont Homeland Security Unit
Developed January 2020

This tool can be used to help your organization identify security vulnerabilities within your facility. The answers to the following questions can help your organization identify areas to improve security in your facility. Questions that receive a check in the "No" box may identify a potential vulnerability for the facility. Once a facility identifies a potential vulnerability, facility management may establish or adjust an internal policy or procedure, or seek appropriate professional guidance to explore options available to address the vulnerability.
